This material is intended as a general reference to those statutes applicable to juvenile offenses and procedures in the Harris County Justice Courts. It is a secondary source to allow reference to those statutes and procedures. While every effort was made properly and accurately to include all recent legislative changes and their interpretation, as with any secondary source, it is best to consult the original legislative enactments. The various forms were drafted to provide permissible options, as appropriate. It is not possible to include information sufficient to meet the facts of each offense, nor the circumstances of each case. You are urged to consult the County Attorney's office to review specific procedures and forms.
